"It's staying put up there"

REMItop vario II – The roof window that was the best in test according to REISEMOBIL International (7/2011 issue)

"There are lots of cheap standard roof windows available. They clatter and rattle and, when you're driving, you get such a draught through your mobile home that you'd be forgiven for thinking you were actually out at sea somewhere." That's according to Reisemobil International, issue 7/2011. This realisation was the catalyst for the renowned specialist magazine, published by DoldeMedien (a specialist publisher of caravanning and outdoor leisure journals) to take a look at what roof windows were available on the accessories market.

Seven brands were selected, installed and tested for, amongst other things, the amount of noise they made during a journey.

The result?

The REMItop vario II roof window was by far the quietest window on test. With 71 dB at 80 km/h and 78.6 dB at a speed of 105 km/h, it was streets ahead of the rest. And the editorial team was impressed by other features too: "Well made, plus the pleated blind and mosquito net are really easy to slide along."

But the testers reserved their greatest praise until last: "The REMItop vario II window is staying on the office's mobile home. Top."

REMItop vario II: The quietest roof window on test.
